Introduction

Overview

Destination C1 & C2: Grammar and Vocabulary has been designed for advanced students at C1 and C2 levels on the Council of Europe's Common European Framework scale. This book provides presentation and practice of all the key grammar, vocabulary and lexico-grammatical areas required for all main C1 and C2 exams, eg Cambridge CAE and Cambridge CPE.

There are 26 units in the book: 13 grammar units and 13 vocabulary units.

Grammar

Each grammar unit begins with a clear two-page presentation of grammar rules and examples in table form. Important points are highlighted in *Watch out!* boxes.

The grammar practice exercises follow the order of the grammar presentation, and are graded in difficulty through the unit. A wide variety of exercise types are used, including those found in major C1 and C2 level exams.

In each grammar unit, the topic vocabulary focus of the following unit is used as a context for presentation and text-based exercises.

Vocabulary

The vocabulary units are topic-based, covering topics appropriate to the level. Each vocabulary unit begins with two pages of clear presentation tables comprising six sections: two topic vocabulary sections; phrasal verbs; phrases, patterns and collocations; idioms; word formation. The vocabulary exercises are organised according to these sections, and provide systematic practice of the vocabulary presented. Exercise types found in major C1 and C2 level exams are included.

The grammar focus of the preceding unit is consolidated within these exercises.

Revision and consolidation

Strong emphasis is placed on revision and consolidation. The book includes:

- thirteen reviews (after every two units)
- two progress tests (after units 12 and 26)
- six photocopiable revision tests (after every four units)

Additional material

Additional reference material is provided at the back of the book. This includes:

- a topic vocabulary database with definitions and example sentences
- a phrasal verbs database with definitions and example sentences
- a phrases, patterns and collocations database
- an idioms database with definitions and example sentences
- a word formation database

Words and phrases often used with the present perfect simple

since / for / It's the first/second/etc time / before / already / yet / ever / just / still / recently / up to now (up) until now / so far

vs Grammar

In American English, the past simple is often used instead of the present perfect simple.

US: **Did** you **find** the answer yet? US: I already **found** the answer.

UK: **Have** you **found** the answer yet? UK: I've already found the answer.

In informal American English, gotten is sometimes used as a past participle instead of got when it means 'obtain', 'become' or 'move'.

US: I haven't gotten the books yet. (= I haven't bought the books yet.)

UK: I haven't got the books yet.

Present perfect continuous

Actions and situations continuing up to the present (or just before the present)

The future (in time clauses) (see Unit 5 for more information) We've all been wondering what to get Tony for his birthday and we just can't decide.

Past time

Past simple

Single completed actions

Repeated or habitual actions in the past

General truths about the past

Permanent situations and states in the past

The main events in a story

The present (in conditional sentences) (see Unit 11 for more information)

The present (after wish, it's time, would rather, etc)

(see Unit 13 for more information)

Sony and Philips **invented** the CD in the early 1980s.

We moved house a lot when I was a kid.

Early clocks were usually very unreliable.

Did the ancient Egyptians **have** more advanced technology than other civilisations?

Frank **turned on** the TV and **sat** on the sofa.

If we **didn't have** computers, what would the world be like?

I'd rather Michael **didn't waste** so much time playing video games.

Emphatic past simple

To emphasise contrast in the past

Perhaps our grandparents didn't have e-mail, but they **did have** the telephone and telegrams.

To emphasise strong feeling in the past

I did enjoy our visit to the Science Museum last summer.

Past simple vs present perfect simple

- In general, the past simple is used to refer to periods of time or moments which are finished. The present perfect is used to refer to periods of time which continue up to the present.
 - ✓ The nineteenth century **saw** many technological advances, such as the camera and the electric light bulb.
 - ✓ There **have been** many technological advances in recent years, the most important being the spread of the Internet.
- The past simple is used to refer to events at a specific time in the past. The present perfect is used when the specific time something happened isn't important or relevant, or when the present result of a past event is important.
 - ✓ I sent my first e-mail six months ago.
 - ✓ Have you ever sent an e-mail before?

Past continuous

Actions in progress at a particular moment in the past

Actions in progress around a particular moment in the past

Temporary situations and series of actions in the past

Changing and developing situations in the past

Annoying or amusing past habits (usually with *always*)

Background information in a story

Actions in progress over a period of time

Two actions in progress at the same time

The present and the future (in conditional sentences)

(see Unit 11 for more information)

The present and the future (after wish, it's time, would rather, etc) (see Unit 13 for more information)

Were you chatting to Matt online at midnight last night?

At the turn of the twentieth century, many discoveries **were being made** in physics and other sciences.

At the time, I was working for a large software company in California.

I was getting frustrated with my internet provider so I decided to change.

When she was young, Tina was always taking things apart to see how they worked.

It was raining outside and people were making their way home after work.

Were you writing e-mails all yesterday morning?

While I was playing a computer game, my brother was doing his homework.

Would you be happier if you were studying computer science?

I wish we were going to the computer fair next weekend.

Past continuous vs past simple

- We often use the past continuous to describe background events in progress and the past simple for the main events.
 We were talking about MP3s when Andrea mentioned her new music website.
- We normally use the past simple to describe regular or repeated actions in the past, not the past continuous.
 When I was a child, I visited my grandmother every week.

Past continuous vs present perfect continuous

In general, the past continuous is used to refer to actions in progress during periods of time or at moments which are finished. The present perfect continuous is used to refer to actions in progress during periods of time which continue up to the present.

- ✓ We were working on my computer for four hours yesterday.
- ✓ We have been working on my computer for four hours so far.

Past perfect simple

Situations and states before the past Completed actions before a moment in the past

A series of actions continuing up to a moment in the past

Completed actions where the important thing is the result at a moment in the past

Had you had your computer long before it broke down?

Past perfect continuous

Actions and situations continuing up to a moment in the past (or just before a moment in the past)

She'd been writing computer games for over ten years before she finally had a hit.

would

Past habits, particularly for the distant past

The ancient Greeks **would** rely on the power of slaves, rather than machines.

Watch out!

- Would can also be used with a continuous infinitive when we are referring to a habit involving actions in progress.
 ✓ Whenever I went to James's house, he would usually be playing on his computer.
- Would is not usually used to refer to past states.

used to

Past habits and states, particularly for the distant past

It used to seem strange to be able to communicate over long distances.

Natch out!

- Remember that used to is not the same as be used to. Be used to refers to a situation that is now familiar or no longer strange.
 - ✓ At first, people found it strange sending messages by mobile, but now everyone's used to it.
- We use get used to to refer to the process of becoming familiar with a situation.
 - ✓ It's surprising how quickly people in the nineteeth century **got used to** travelling by train.

A Circle the correct word or phrase.

Often the same future event can be described in different ways:

- ✓ The shop closes at 3 pm tomorrow.
- ✓ The shop **is closing** at 3 pm tomorrow.
- ✓ The shop will close at 3 pm tomorrow.
- ✓ The shop is going to close at 3 pm tomorrow.

Which way you choose to describe something depends on a number of things:

Function (For example do you want to express a request, a promise or an offer?)

Future time

- How you see the future event/situation. (For example, if you see a future event as a fixed event that cannot be changed, the present simple may be appropriate.)
- Level of formality (will is usually more formal than be going to)

In the tables below are the **main** uses of will, be going to, etc for the future.

will

Predictions

Future facts

Decisions made at the moment of speaking

Offers

Promises

Requests

Refusals (won't)

It looks as if Jake will lose his job.

The factory will open in July.

I know! I'll ask for a pay rise tomorrow.

I'll help you with the advertising campaign.

I promise you you won't lose your job.

Will you **give** a presentation on the sales figures?

No, I won't give a presentation on the sales figures.

Watch out

- For offers and suggestions in the question form, with I and we, we use shall not will.
 - ✓ Shall I help you with the advertising campaign? (offer)
 - ✓ Shall we discuss this in the morning? (suggestion)
- For requests, we can also use would, could or can. Would and could are more polite than will and can.
 - ✓ Would/Could/Can you give a presentation on the sales figures?
- For refusals, we can also use couldn't or can't. Couldn't is more polite than won't and can't.
 - ✓ No, I couldn't/can't give a presentation on the sales figures.

vs Grammar

In British English, shall is sometimes used with I and we in place of will.

✓ I shall be in touch again soon.

✓ I will be in touch again soon.

be going to

Predictions	based	on	present	evidence
Intentions				

Look at that wall. It looks as if it's going to fall down.

I'm going to get my degree, then get a well-paid job.

Present continuous

Arrangements
Intentions

I'm meeting Fiona on Friday to discuss the advertising campaign.

I'm asking for a pay rise tomorrow.

Both be going to and present continuous can be used for intentions. However, present continuous is **not** usually used for intentions in the distant future.

- ✓ I'm going to work for a really successful company one day.
- x "m working for a huge multinational one day."

Present simple

Fixed future events (eg timetables and schedules) The shop **closes** at 3 pm next Saturday.

Future perfect simple

Completed situations before a certain time Continuing situations up to a certain time

It looks as if Jake will have lost his job by the end of the week.

This time next month, I'll have worked at the company for exactly 25 years.

Future perfect continuous

Continuing situations up to a certain time (emphasises duration)

This time next month, I'll have been working at the company for exactly 25 years.

Future continuous

Situations in progress at a certain time in the future

Situations which will happen in the future in the normal course of events

Habits or repeated actions at a point in the future

This time next week I'll be travelling round Russia on business.

The company Chairperson will be arriving on Thursday.

I think that, in the future, more and more people will be commuting to work by plane.

Time clauses

After many time words and phrases, such as when, while, once, as soon as, etc, we do **not** use will or be going to. We use:

present simple

✓ I'll give you a pay rise when you start working harder!

present continuous

✓ I'll give you a pay rise once you're bringing in three new customers a week.

present perfect simple

✓ I'll give you a pay rise as soon as you've proved you're a hard worker.

present perfect continuous \(\sqrt{ I won't give you a pay rise until you've been working here for three years. \)

Other ways to express the future

be (just) about to

be (just) on the point/verge of

be due to

be to do

other modals

(see Unit 9 for more information)

for the (very) near future for the (very) near future for formal arrangements

for obligations

for formal announcements

to express certainty, possibility, etc

I'm just about to ask for my pay rise.

I'm just on the point/verge of asking for my pay rise.

I'm due to meet my boss at eleven o'clock.

You're to get those reports written before Friday!

The factory **is to open** in July.

I **might** ask for a pay rise tomorrow.

Future in the past

When we look back at what was the future once, we usually make the future verb forms past. Will becomes would, is going to become was going to, etc. Tenses such as present simple also change, by going back one tense.

will -> would

Then: I think the factory will open in September. Now: I thought the factory **would open** in September.

present simple -> past simple

Then: I'm in a rush because the train **leaves** at 4. Now: I was in a rush because the train **left** at 4.

had (10)since my membership ran out I was no longer eligible to attend the (11)dinner next month.
I, of course, immediately replied, stating the facts as I saw them.
I received a (12)e-mail from the same person, apologising for the confusion, explaining that although I did not
have to pay to renew my subscription, I still had to renew it. They kindly explained how I could do this online, and I
must say I was most impressed with the whole thing, as the change from my being a non-member to being a member
again was literally (13)
I am now looking forward to meeting up with some of my (14) at the dinner next week. I hope to see you there.
Warmest regards,
Robert Thompson

Grammar

Passives and causatives

The passive

When we don't know who does/did something When it's obvious who does/did something

When it's not important who does/did something

To emphasise new information (which appears at the end of the sentence)

To avoid starting clauses with long expressions

To produce a formal style

The car was stolen at approximately 1.30 am.

Having been introduced in 1988, the Road Traffic Act regulates all vehicle use on UK roads.

The XL500 **was designed** with young families in mind, so there's plenty of room in the boot.

This type of submarine **was developed** during the Second World War by the Americans.

We **were surprised** by the number of people trying to leave the city for the long weekend.

(More natural than The number of people trying to leave the city for the long weekend surprised us.)

All passengers **are required** to present their ticket to the inspector.

Impersonal passive

Form

noun + verb in passive form + infinitive / perfect infinitive

There + verb in passive form + infinitive / perfect infinitive

It + verb in passive form + that clause

Common verbs

agree, assume, believe, claim, consider, estimate, expect, feel, find, guarantee, know, mean, presume, regard, report, say, suppose, think, understand

accept, agree, argue, assume, believe, calculate, claim, consider, estimate, expect, feel, know, presume, report, say, suggest, suppose, think, understand

Example

Tourism **is expected to become** a major part of the country's economy.

There are reported to have been a record number of accidents on the roads this year.

It is thought that the new railway will provide employment opportunities for local people.

Direct and indirect object

Some verbs in active sentences can be followed by both a direct and an indirect object (usually a person). Common verbs include: bring, buy, get, give, leave, lend, make, offer, owe, pass, pay, promise, refuse, send, show, take, teach, tell, write, etc. There are two possible passive forms.

Active sentence: Michael gave the plane tickets to Jill.

With indirect object as subject of passive verb With direct object as subject of passive verb **Jill** was given the plane tickets (by Michael).

The plane tickets were given to Jill (by Michael).

- In the second structure in the table above, we sometimes omit the preposition before indirect object pronouns.
 - ✓ Sharon's Rolls-Royce was left (**to**) her by her grandfather.
- With the verbs explain and suggest, the preposition before indirect object pronouns cannot be omitted. They cannot be used with the first structure in the table above.
 - x I was explained how to drive the train.
 - x How to drive the train was explained me.
 - ✓ How to drive the train was explained to me.

Avoiding the passive

The passive is not normally used with verbs in the present perfect continuous, past perfect continuous, future continuous or future perfect continuous tenses. Various prepositional phrases are used to avoid the passive in these tenses, including the following.

in progress x Preparations for the flight will be being made as the President arrives at the airport.

✓ Preparations for the flight will be in progress as the President arrives at the airport.

in training X At the end of this year, I will have been being trained as a pilot for four years.

✓ At the end of this year, I will have been in training as a pilot for four years.

on display x Vintage cars have been being displayed in the town centre all this week.

✓ Vintage cars **have been on display** in the town centre all this week.

under consideration | x By the time they came to a decision, the problem had been being considered for some time.

✓ By the time they came to a decision, the problem **had been under consideration** for some time.

under construction x The new railway station has been being built for two years now.

✓ The new railway station has been under construction for two years now.

Watch out!

- Some verbs are not usually used in the passive. They include intransitive verbs such as appear, arrive, die, etc.
- Many verbs used statively are also not usually used in the passive. They include consist, deserve, fit, have, lack, look, mind, realise, resemble, seem, suit, etc.
- The verb let is not used in the passive when it means 'allow', although phrasal verbs with let can be used in the passive.
 - ✓ Alice was clearly guilty, but she was let off with a warning.
- Some verbs can be followed by the bare infinitive (without to) in active sentences. They are followed by the full infinitive in passive sentences. These verbs include hear, help, make and see.
 - ✓ We heard Jim say he was going to Albania. (active)
 - √ Jim was heard to say he was going to Albania. (passive)

Causative: get/have sth done

Actions we arrange for other people to do for us

Things we experience (usually negative and not intended)

Did you finally get your bike fixed?

I heard that Susie had her motorbike stolen.

- In general, get is more informal than have in causative structures.
- We can use other verbs instead of get and have with a causative meaning. They include need, want and would like.
 I'd like those cars washed by this evening, please.
- The structure get sth done can also mean 'finish doing something'.
 - ✓ We'll set off as soon as I've got the car fixed.

Causative: get sb to do / have sb do

Actions we make somebody/something do for us **Did** you **get Alex to drive you** all the way to London?

Causative: get/have sb doing

Actions we make somebody/something start doing Don't worry. We'll soon have your car running like new.

Watch out!

- Most of the time, we do not show who does/did an action (the 'agent') in a passive or causative sentence. When we do want to refer to the agent, we use by.
 - ✓ We should get the car looked at by a professional.
- When we want to refer to materials or instruments used in a passive or causative sentence, we use with.
 - ✓ The engine is started with a special electronic card instead of a key.
- We use other prepositions after some past participles that are used like adjectives.
 - √ I am frightened of driving on motorways.

 √ My car is covered in dirt.

Imagine (1) transported around the globe in a matter of hours, rather than
the 24 hours which (2) currently required to get from London to Sydney.
Such is the promise of the scramjet, a highly experimental type of engine which has been
(3) development over the past couple of decades. In a conventional jet engine,
air (4) sucked into the engine at speeds below the speed of sound, where it is
mixed (5) fuel, ignited, and the exhaust gases provide thrust. In a scramjet, which
has to (6) taken to supersonic speeds by conventional means before it will
operate, the air enters at supersonic speeds.
It has (7) estimated that a scramjet might be capable of travelling at 12-24 times
the speed of sound. However, the technology (8) been found to be extremely
difficult to control. Although scientists (9) had scramjets perform short flights,
commercial aircraft are still a long way in the future, and indeed may never (10)
successfully developed.

Grammar

Modals and semi-modals

- The nine main modals (will, would, can, could, may, might, shall, should, must) have only one form (ie they do not change tense or person) and are followed by a simple or continuous bare infinitive (eg could + do, be doing, have done, have been doing). They can also be followed by a bare infinitive in the passive (eg could + be done, have been done).
- Semi-modals have similar meanings to modals. They include: need (to), ought to, had better and have (got) to.
- Some semi-modals, such as had better, do not change tense or person. Others, such as have (got) to, do.
- Some semi-modals can be used in combination with modals, producing phrases such as might have to.

Ability

and a series of the series of			
Real ability	Current or general ability	can, can't	You can't really speak seven languages fluently, can you?
	Past ability	could, couldn't	There's no way you could read when you were two!
	Decisions made now about future ability	can, can't, could, couldn't	I can get you a paper when I go to the shop, if you like.
	Future ability	will/won't be able to	One day, maybe, all adults will be able to read and write.
Hypothetical ability	Current or general hypothetical ability	could, couldn't	I couldn't go on a quiz show. I'd be too scared!
	Future hypothetical ability	could, couldn't	I could go with them to the cinema tomorrow but I won't because I've already seen the film.
	Past hypothetical ability	could have, couldn't have	They could have asked the Prime Minister much more searching questions. I wonder why they didn't.

Watch out!

- The full negative form of modals is written as two words, eg could not. The exception is cannot, which is one word.
- Can and could cannot be used as infinitives. We can use to be able to instead.
 I'd love to be able to come with you to the cinema tomorrow but I just can't.
- We don't usually use could for past ability on one occasion. We use was/were able to, managed or succeeded, etc. ✓ Luckily, she was able to finish the article in time.

However, with verbs such as see, hear, feel, etc we can use could for past ability on one occasion.

✓ I could see that she was tired.

Permission

Asking for permission	may, could, couldn't, can, can't	Can I finish watching this before I go to bed?

A tabloid editor speaks As editor of the most popular British tabloid, I need (I) make sure we give our readers what they want. And what do they want? Scandal. It is my job to tell the readers when a celebrity has done something they should not have (2), or when a politician (3) to have done something but didn't. One accusation that is often levelled at tabloids is that we think we (4) not need to worry about the truth, but that is just not true. I have (5) be shown proof from at least two sources before I run a story. As a newspaper, you have (6) to get your facts right and you (7) not print a story just because you want it to be true. There are times when, in retrospect, we (8) not have been so careful and

could have broken a story days before we did, but we (9) to have absolute proof first. I often get asked why so many celebrities sell their stories to us. The truth is that we tell them we are going to run a story about them anyway, so they realise they might as (10) put their side of the story across. They know they (II) definitely have to speak out at some point, so why wait? And, let's face it, celebrities need to (12) talked about constantly or they stop being famous, so they (13) not complain, in my view. What I would say to celebrities and politicians that do criticise tabloids is that you (14) not fear us if you haven't done anything wrong. But if you have, you (15) better look out, because we are going to catch you.

Zero conditional (if/when/whenever + present tense, present tense)

General or scientific facts and definitions

If you burn fossil fuels, carbon dioxide is produced.

First conditional (if + present tense, will + bare infinitive / imperative)

Real conditions in the present or future and their results in the present or future

If we continue to pollute our planet, future generations will suffer.

To give conditional instructions

If the people from Greenpeace call, tell them I'll call them back later.

Other modals and semi-modals can be used instead of will in the result clause in first conditionals. These include be going to, can, could, may, might, shall, should, have to and ought to.

✓ We might prevent disaster if we change the way we live now.

Second conditional (if + past simple / past continuous, would + bare infinitive)

Hypothetical conditions in the present or future and their hypothetical results in the present or future

What would the local government do if there was an earthquake in the area?

Watch out!

Other modals can be used instead of would in the result clause in second conditionals. These include might and could. ✓ If the weather was better, we **could** have a picnic.

vs Grammar

In British English, we can use both was and were after if with first and third person singular. Were is more common in a formal style. In American English, it is usual to use were.

UK: If I was/were a gambler, I'd put money on Jim being late.

US: If I were a gambler, I'd put money on Jim being late.

In both British and American English, were is usually used in the phrase If I were you,

Third conditional (if + past perfect, would have + past participle)

Hypothetical conditions in the past and their results in the past

A lot more people would have been trapped by the flood if there hadn't been a warning.

Other modals can be used instead of would in the result clause in third conditionals. These include might, could and should.

✓ If you hadn't had a lot of luck, you could have lost all your money.

Mixed conditionals

Hypothetical conditions in the past and their results in the present

Hypothetical conditions in the present and their results in the past

You might not be in so much trouble if you hadn't started gambling.

If I were you, I would have made Paula buy her own lottery ticket.

Inverted conditionals

More formal form of the first conditional (with *should*)

More formal form of the second conditional

More formal form of the third conditional

Should the drought continue, many people will be forced to leave their villages. (= If the drought should continue ... / If the drought continues ...)

Were we **to** stop using fossil fuels tomorrow, it would still take decades for the planet to recover. (= If we were to stop ... / If we stopped ...)

Had Charles Darwin not visited the Galapagos Islands, he might never have developed his theory of evolution. (= If Charles Darwin hadn't visited ...)

Watch out!

- When the verb to be inverted is negative, we put not after the subject.
 - ✓ Had we not attended the meeting, we would have had no idea of the council's plans.
- When the *if* clause comes before the result clause, we usually separate the two clauses with a comma. When the result clause comes first, we do not use a comma.
 - ✓ If you share a car to work, you can save on energy.

✓ You can save on energy if you share a car to work.

Are you concerned about the environment? **If so**, you might be interested in joining Greenpeace.

You should have your air conditioner serviced, **otherwise** you'll waste a lot of energy.

Unless governments act now, the environment is really going to suffer.

In case of fire, leave the building by the nearest emergency exit.

Take a coat with you **in case** the weather gets worse.

Other uses of if

To mean 'if it is true that'
To mean 'if you are willing to'
To mean 'I'm saying this in case'

If you were at the meeting, why didn't you raise the issue of recycling?

If you'll follow me, I'll show you into the park manager's office.

If you like zoos, the one in Singapore is fantastic.

Unreal time

- Sometimes we use the past simple and continuous to refer to the present, the future or a general situation.
- Sometimes we use the past perfect simple and continuous to refer to a hypothetical past that didn't actually happen.

Watch out

- For all of the situations below with the past simple and past continuous, with the verb to be after I and he/she/it, there is a choice of was or were.

 I wish I was rich.

 I wish I were rich.
- Both was and were are common in informal English but were is sometimes more appropriate in formal, written English and is always used in the phrase If I were you ...

Conditionals

For hypothetical and unlikely current, future or general conditions (see Unit 11 for more information)

For hypothetical past conditions (see Unit 11 for more information)

I wouldn't accept a job unless I **was** absolutely sure what the salary was. If you **were travelling** to Russia, would you get roubles before you left or when you arrived?

If I had known, I would have taken some dollars with me.

If I had been running the bank, I would have given you an overdraft!

imagine / what if / suppose / supposing

To consider hypothetical or unlikely current, future or general situations

To consider hypothetical or unlikely past situations

Supposing you **were given** ten million euros, what would you spend it on? What if you **were walking** down the street and you suddenly found a wallet? Would you hand it in?

Suppose you **had won** the lottery last night. What would you have done? Imagine you'**d been working** there for 40 years. What kind of pension would you have got?

Watch out!

We can also use a present tense instead of past simple or past continuous after these words and phrases. This indicates that the situation is more likely to happen.

- ✓ Supposing you **become** a millionaire, how will it change your life? (more likely)
- ✓ Supposing you **became** a millionaire, how would it change your life? (less likely)

as if / as though

For current, future or general untrue, hypothetical comparisons

For past untrue, hypothetical comparisons

She acts as if/though she **was** a millionaire.

Colin acts as if/though he were making a million pounds a month.

Tony looks as if/though someone **had** just **handed** him a million euros. It's almost as if/though they'd been working for free.

Watch out!

- When the verb before as if/though is in a present or present perfect tense, we only use a past tense for comparisons that we know aren't true. ✓ She behaves as if she **were** really wealthy. (= She's not really wealthy.)
- When the verb before as if/though is in a present or present perfect tense, for comparisons that are possible, we use a present or present perfect tense after as if/though.
 - ✓ She looks as if she's really wealthy. (= It's very possible that she is wealthy.)
- When the verb before as if/though is in a past tense, we use a past tense after as if/though for comparisons that are either true or hypothetical.
 - ✓ She **looked** as if she **was** really wealthy but I knew she wasn't / so maybe she was.

Questions and requests

To make questions and requests more polite

How much money did you want to spend, madam? I was wondering whether you might be able to give me some advice.

it's (high/about) time

To suggest that something should be done now or in the immediate future

It's (high/about) time I got a mortgage. It's (high/about) time we were leaving.

- With It's (high/about) time, there is often no real difference in meaning between past simple and past continuous. ✓ It's time I went home. ✓ It's time I was going home.
- We can also use a full infinitive after It's time, but not after It's high/about time. ✓ It's time to think about getting a loan.

would rather/sooner

Jan would rather/sooner we **bought** a house than **carried** on renting. For current, general or future preference Would you rather/sooner I was begging in the streets? For past preference We'd rather/sooner you hadn't lent Kurdip the money.

Would rather/sooner + past simple/continuous is only used to talk about preference regarding someone else. When there is no change of subject, we use would rather/sooner + bare infinitive, or would prefer + full infinitive. ✓ She'd rather not borrow any money from you.
✓ She'd prefer not to borrow any money from you.

wish / if only

Wishes about now, the future or generally

Wishes about the past

Do you wish you had a bigger house? If only I was earning a reasonable salary.

If only I'd bought a lottery ticket this morning.

Carla wished she'd been keeping a much closer eye on her investments.

When wish is in the past simple, it is still followed by the past simple or past continuous for current, future or general wishes.

✓ Simon dearly wished that he had a bigger house. ✓ I sat there and wished I was earning a reasonable salary.

Other structures with wish / if only

To criticise other people or wish for a situation | Wish / If only + would to be different

I wish they would offer me a pay rise.

Wishes about ability or permission

Wish / If only + could

I wish I **could** find a job that pays well.

Wishes about past ability or permission

Wish / If only + could + perfect infinitive

I wish I could have got a mortgage with a fixed interest rate.

To express desires in a very formal way

To wish someone luck/happiness/success/etc

Wish + full infinitive

Wish + noun

I wish to speak to the bank manager.

I wish him every **success**.

- We do not usually use would when the subject of wish is the same as the subject of would. x Pete wishes he would earn more.
- We do not use wish to express desires about a real, possible future. ✓ Pete wishes he earnt / could earn more.
- We can use hope instead.
 - X I wish the cheque arrives tomorrow.
- ✓ I hope the cheque arrives tomorrow.

A Write the verbs in brackets in the correct form in each gap.

The importance of nothing

There is a lateral thinking question which asks: 'If the Romans (1) (have) all the technology we have today, why would they not have been able to get to the moon?' (2) (we / be) to think about this logically, we would probably be unable to come up with a satisfactory reason. However, with lateral thinking, there is a perfectly reasonable explanation. (3) (the Romans / be) as technologically advanced as we are, they would indeed be stuck here on Earth. Why? Because if, 2,000 years ago, they (4) (employ) a Roman centurion to count down their Roman space rocket, he would have started at ten (in Latin, of course), got down to one and then stopped. The Romans had no word for 'zero', so there would have been no 'Lift-off!' Of course, the truth is that if these hypothetical Romans (5) (have) the number 'zero', it would be impossible for them to have all our technology. If the concept of zero (6) (develop), we would not have computers today. Modern maths and physics relies absolutely on there being a numeral to represent nothingness. It may seem obvious to us now that zero should exist, but many philosophers in the past were very uncomfortable with the idea. The ancient Greeks tied themselves in logical knots by stating: 'If nothing (7) (be) a number, then it would be something. And if it (8) (do) become something, then it would no longer be nothing.' If it (9)(be) for an Indian mathematician called Brahmagupta, who knows what would have happened? He wrote the earliest known text stating that zero was a number. If he (10)(do), we might not have set foot on the moon either.

B Write the verbs in brackets in the correct form in each gap to make hypothetical situations.

1	Supposing you (have) the chance to spend a year in space, would you take it?

Adjectives and adverbs

Position of adjectives

Before a noun

After verbs such as appear, be, become, feel, get, grow, look, seem, smell, sound, taste and turn

I love your new house.

The material this dress is made out of feels rough.

Watch out

- The verbs in the table above are not normally followed by adverbs. However, some of them can be followed by adverbs when the verb refers to an action.
 - ✓ She looked angrily at the man behind the counter.
- After as, how, so, this (= so), that (= so) and too, adjectives come before the article.
 - ✓ I could never live in as crowded a city as Tokyo. ✓ Tokyo's so/that crowded a city that I'd hate to live there.
 - ✓ How crowded a city is Tokyo?
 ✓ I could never live in Tokyo it's too crowded a city.
- Some adjectives only appear after a verb and not before a noun. These include adjectives beginning with a-, such as
 afraid, aghast, alike, alive, alone, asleep, awake, etc
 - ✓ A boy was asleep in the street.

x There was an **asleep** boy in the street.

Position of multiple adjectives

When more than one adjective is used before a noun, they usually appear in the following order, sometimes separated by commas: judgement, size, shape, colour, origin, material, purpose

We've got a **lovely little wooden** cabin in the mountains.

I love your **long, red, Chinese, silk** curtains.

What you need for your living room is a **large oak dining** table.

Adjectives used as nouns

To refer to members of a general social group
To refer to members of a specific group
To refer to some nationalities

We need to provide better housing for the poor.

When the building collapsed, **the injured** were rushed to hospital.

The French have introduced new housing regulations in Paris.

Position of adverbs

There are three places in a clause where an adverb (or adverbial phrase) might appear: at the beginning, at the end and with the verb. Different kinds of adverb go in different positions, and some may go in more than one position.

Adverbs do not normally appear between a verb and its direct object.

With verbs formed using auxiliary verbs, the adverb normally follows the (first) auxiliary.

Adverbs of frequency (always, often, etc) follow auxiliary verbs and be and come before other verbs.

Connecting adverbs usually go at the beginning of a clause.

- x They built very quickly the house.
- ✓ They built the house very quickly.
- ✓ The town has always been popular with tourists.
- ✓ Our house will probably have been decorated by the time you get there.
- ✓ I'm rarely in the city centre.
- ✓ I rarely go to the city centre.
- ✓ We bought it as an investment; then, all the property prices in the area fell.

Comparisons

Comparative: to compare things or people that are different Superlative: to compare one member of a group of people or things with the whole group

Your flat is much **bigger** and **more comfortable** than ours. Mexico City is probably my **least favourite** city. I think my home town is the **best** place in the world.

Comparative and superlative modifiers

Modifiers with comparatives: (quite) a bit, a great deal, a good deal, a little, (quite) a lot, any, considerably, even, far, just, little, much, no, slightly, somewhat

Modifiers with superlatives: by far, far and away, easily, far from, much, quite

This area has become **considerably** more crowded and **far** noisier in the last ten years.

If you ask me, Ladybridge is **easily** the nicest area of town to live in.

Structures used to make comparisons

(nearly/almost/just/half/twice/easily/etc) as ... as not (nearly/quite) as/so ... as nothing like as ... as / nowhere near as ... as the ... , the ...

Platinum is about **twice as** expensive **as** gold.

Iron is**n't nearly as** hard **as** diamond.

Iron is **nothing like as / nowhere near as** hard **as** diamond.

The taller the building, **the greater** the fire risk.

Watch out!

- ✓ Paper is not nearly as strong as plastic. (large difference between the things being referred to)
- ✓ Gold is not quite as valuable as it was last month. (small difference between the things being referred to)

Gradable and ungradable adjectives

Ungradable adjectives describe qualities which are extreme and which cannot be 'more' or 'less', eg amazing, dead, exhausted, fantastic, helpless, impossible, incredible, necessary, perfect, pointless, right, splendid, unacceptable, wonderful, wrong, etc. Other adjectives are **gradable**.

Modifiers with ungradable adjectives: absolutely, completely, quite, totally, utterly, etc

Modifiers with gradable adjectives: a bit, a little, fairly, quite, really, too, very, etc

After working on the building site all day, Tim was **absolutely exhausted**.

Pete was **a bit tired** after working on the building site all day, but it wasn't too bad.

Watch out!

When *quite* is used with gradable adjectives, it means 'rather, fairly'. When *quite* is used with ungradable adjectives, it means 'absolutely, completely'.

✓ Our flat's quite nice, but not perfect.

✓ I love your flat! The balconies are quite splendid!

Confusing cases

Some words have the same form as an adjective and as an adverb and some also form adjectives with -ly. The different forms can have different meanings. These include:

fair / fairly straight free / freely fine / finely

late / lately high / highly

short / shortly right / rightly

fast well hard / hardly wide / widely

near / nearly

- ✓ Sandstone is not a very hard material.
- √ I could hardly hear the music.
- ✓ Hit it too hard and you'll break it.
- X Hit it too hardly and you'll break it.

fatch out!

Some adjectives end in -ly, eg costly, deadly, friendly, likely, lively, lonely, lovely.

They do not form adverbs, but we often use a phrase such as in a ... way to describe how something is done.

✓ She looked at me in a very friendly way.

VERTICAL LIVING

In the 1950s and 60s, the tower block seemed to offer a solution to two problems. Firstly, houses built (1) earlier in the century, or even in the nineteenth century, were (2)longer suitable for people to live in. Secondly, an increasing population placed a great (3) more strain on available space. New, vertical tower blocks, able to house more people in a relatively small space (4) a horizontal street, started to appear. The more people got used to living in these structures, (5) more they would form the heart of communities, or so the thinking went. Initially, these blocks were (6) popular than the old housing they replaced. They were (7) affordable alternative for many people, and they also offered excellent views. However, these buildings soon became (9) attractive to residents as crime rose. It also became clear that a tower block was (10) like as friendly a place to live in (11) a traditional street. More often (12) not, residents in a tower block didn't interact with each other on a regular basis. Although modern tower blocks are making something of a comeback amongst young professionals, they still have a poor reputation in the minds of many people.

Relative pronouns in relative clauses

Clauses

who	to refer to people (and animals when we want to give them a personality)	There are a lot of people who hate having injections.
which	to refer to things and concepts (and animals when we don't want to give them a personality)	This is the prescription which the doctor gave me.
whom	a formal word for who; as an object; must be used directly after a preposition	That's the consultant with whom I spoke.
that	a more informal word for who, which, when, where, why; only used in defining relative clauses	This is the prescription that the doctor gave me.
when	to refer to time; = in/on/etc which	I'll never forget the day when I broke my finger.
where	to refer to place or situation; = in/at/etc which	Harley Street, where she was born, is famous for its clinics.
why	often after the word reason; = the reason for which; only used in defining relative clauses	And that's (the reason) why I wanted to become a vet.
whose	the possessive of who and which; can also come after a preposition	There are several kids in my class whose parents are doctors.
what	= the thing(s) which; only used in defining relative clauses	What I don't understand is why she didn't take her pills.
	<u> </u>	

Watch out!

- When we use a preposition with a relative pronoun, it is more formal to put the preposition before the pronoun.
 - ✓ This is the medical encyclopaedia to which I referred. (very formal)
 - ✓ This is the medical encyclopaedia which I referred to. (less formal)
- Which can refer to the whole preceding clause, rather than just the preceding noun.
 - ✓ She announced that she wanted to be a pathologist, **which** really shocked us. (= the announcement shocked us)

Defining and non-defining relative clauses

Defining relative clauses

These tell us which one of a group of things/people we are talking about. The sentence doesn't usually make complete sense if we remove the relative clause.

✓ That's the doctor who did Karen's operation.

We can use that instead of who/which/etc. This is more informal.

✓ That's the doctor **that** did Karen's operation.

We don't use a comma or commas.

✓ That's the doctor who did Karen's operation.

We can omit the relative pronoun if it is the object.

- ✓ That's the doctor who she saw. (more formal)
- ✓ That's the doctor **she saw**. (less formal)

When, where and why can be omitted.

- ✓ I'll never forget the day when I broke my arm.
- ✓ I'll never forget the day I broke my arm.

We cannot put a number or a determiner such as some, none, much and many before of which or of whom.

Non-defining relative clauses

These simply give us more information about someone/something. The sentence makes complete sense if we remove the relative clause.

✓ Dr Lake, who has been working here for over ten years, is a very experienced surgeon.

We cannot use that instead of who/which/etc.

We must use a comma or commas.

✓ Dr Lake, who is an experienced surgeon, is my uncle.

We cannot omit the relative pronoun.

✓ Dr Lake, who is my uncle, is 50 years old.

We do not use why.

We cannot omit where and when.

✓ Harley Street, where she was born, is famous for its clinics.

We can put a number or a determiner such as some, none, much and many before of which or of whom.

✓ I bought some drugs, some of which were expensive.

Participle clauses

To replace a relative clause

With prepositions and conjunctions

To explain the reason for something

To talk about actions happening at the same time

To talk about actions happening in sequence

As an alternative passive form

As an alternative conditional form

Given an aspirin, I began to feel better. (when/because I was given an aspirin)

Given the chance, I'd definitely study pharmacology. (if I were given the chance)

Watch out!

When the participle clause doesn't have its own subject, the clause and the rest of the sentence must both refer to the same subject.

✓ Standing in the hot, crowded room, I began to feel dizzy. (= I was standing)

X Standing in the hot, crowded room, my head began to feel heavy. (= my head wasn't standing)

Infinitive clauses

To start a sentence

After the verb to be

To be a successful surgeon is the dream of many young children.

(= It is the dream of many young children to be a successful surgeon.)

My job was to give the patients their lunch.

Concession clauses

although / though / even though

Tamsin got burnt, though she had put on sun cream.

Tamsin put on sun cream. She still got burnt, though.

in spite of / despite (+ noun or -ing) | **Despite** putting on sun cream, Tamsin got burnt.

In spite of the fact that she put on sun cream, Tamsin got burnt.

Despite the sun cream, Tamsin still got burnt.

while/whereas While antibiotics are effective against bacteria, they do not work against viruses.

Bacterial infections can be cured with antibiotics, whereas viruses cannot.

Penicillin is a powerful antibiotic. However, some people are allergic to it.

Penicillin is a powerful antibiotic. Some people are allergic to it, **however**.

Penicillin is a powerful antibiotic. Some people, however, are allergic to it.

However hard he (might have) tried, he couldn't put up with the pain.

Hard though/as he tried, he couldn't put up with the pain.

Much as he tried, he couldn't put up with the pain.

however

- With in spite of / despite + -ing, both parts of the sentence must refer to the same subject.
- Even if is used to emphasise that it doesn't matter if something happens or is true, another situation remains the same.
 - ✓ Even if they found a cure for cancer tomorrow, it would take several years before it was available.
- Even if is used to suggest that something may or may not happen, whereas even though suggests that the action actually takes place.
 - ✓ Even if she tried to give her an injection, she couldn't. (= She probably hasn't tried yet.)
 - ✓ Even though she tried to give her an injection, she couldn't. (= She tried and was unsuccessful.)

J Choose the correct answer.

Out-of-body experiences

(1) most scientists dismiss tales of out-of-body experiences on the operating table as
dreams and delusions, there are some cases which seem to defy rational explanation. Take Margaret
Frobisher. In 2003, she was undergoing a routine operation under general anaesthetic at Sansdown
Hospital in Kent. There were serious complications, (2), and her heart stopped beating.
Try (3) they might, the surgeon and anaesthetist were unable to resuscitate her. Finally,
after eight minutes, they succeeded. (4) having been clinically dead, Margaret suffered no
brain damage and no adverse side effects. The story doesn't stop there, (5)
anaesthetist went to visit her in her hospital bed, Margaret Frobisher recounted an amazing story. She said
she vividly remembered floating above the operating table. And (6) her never having been
conscious in that room at any time, she described the room and the resuscitation attempt in great detail.
She said that (7) three of the walls were bright white, one was dark grey. This was true.
She also said that, on the top of a cabinet in a corner of the operating theatre, there was an old book.
(8) the anaesthetist didn't – and couldn't – believe her, she checked. There, just as Margaret
Frobisher had described it, was the book. (9) as they tried, no one at the hospital could
explain how Margaret could have known about the book. Even (10) one does not believe in
a 'soul' or in life after death, it is difficult to explain what happened in that operating theatre when Margaret
Frobisher's heart stopped beating.

from this disease at some point in the future is (3)	AVOID
long as the patient is fairly comfortable and pain-free, there's no moral issue. But what if the patient is	
in extreme agony? They cannot live (4) of machines and 24-hour care. What if the	DEPEND
patient (5) and continually asks for their life to be brought to an end by doctors?	RESOLVE
Should the doctors refuse? At present, in most countries, there are laws against voluntary euthanasia.	
But from a moral point of view, we have to (6) that there is a problem. Do the	KNOW
doctors really have the right to be (7) to the patient's wishes?	SENSE
On the other hand, opponents of voluntary euthanasia argue that scientific (8)	KNOW
is increasing all the time. An incurable disease one day may be curable the next. They also argue	
that if the law was changed, the (9) situation would put doctors in a much worse	RESULT
position. They currently have no choice. Do we as a society have the right to expect doctors to

Crying

A boyfriend or girlfriend we love dumps us. How do we react? Most of us go through a period of crying our
eyes (1) But have you ever wondered why humans cry? Most mammals produce tears to
clean and lubricate the eyes but humans are unique - perhaps with the exception of gorillas and elephants
- in producing tears in response (2) emotional stimuli. We might feel (3) crying
when we hear sad news, or even cry (4) happiness. Scientists are unsure what, if any, benefits
there are from crying as it seems to have little or no immediate effect (5) the situation that
has produced the tears. However, many people do say that they feel the benefits (6) a good
cry in that after it they are emotionally stronger, so it's possible that crying does in some way help us to get
(7) difficult emotional situations.
Some societies look down on adults crying. This attitude is sometimes seen in the society's language.
Expressions such as 'there's no point crying over (8) milk' and '(9) and bear it' in
English reflect a culture that – at least historically – does not value adult crying.
Crying can also be used as a means of deception. If you cry 'crocodile tears', you are (10) on
an act – pretending to be upset when in fact you are not.

Crime and	punishment
------------------	------------

The demand for prison (1) has steadily increased as more and more people have
come to see that locking people up in (2) simply doesn't reduce crime. Not only
does it fail to act as a (3), but it does very little to help (4)
readjust to life back in the (5) after they have served their time. Prisons are isolated
places, where prisoners learn from other criminals, and where bullying, bribery and other forms of
(6) spread. Once outside prison, offenders face (7), which
tends to force them back into a life of crime. Even once the (8) recognises the
need for change, it is notoriously slow. It usually demands new (9) to change
the system, and while the slow processes of (10) go on, more and more lives
are affected.

We have all had the experience, I am sure, of feeling (1)	POWER

Book review
Rarely (1) one find as clear an account of social change as Olivia Harris's Changing Britain.
Those who prefer to bury their heads in the (2) and imagine that Britain is the same as it
was even 20 years ago are in for a shock. Harris convincingly argues that (3) only have
those (4) authority increased their power, but ordinary people are also less likely to stand
(5) to those in office. At (6) point in the book (7) any of Harris's
claims presented without evidence, and neither does she talk (8) to the non-expert. Her main
conclusion, that (9) until we all realise that there is a problem and decide to confront the
powers that (10) will the situation improve, is powerful and irresistible.

Countable nouns

- Countable nouns have a singular and plural form. ✓ That painting is amazing. ✓ Those paintings are dreadful.
- Some countable nouns ...
 - have irregular plurals, eg person/people, mouse/mice.
 - do not change in their plural form, eg the sheep is ... , the sheep are ...
- With hyphenated countable nouns, we usually form the plural by pluralising the key word, eg brothers-in-law and over-achievers.
- With organisations and groups of people (eg group/team/etc), it often makes no difference whether the verb is singular or plural. ✓ The government is/are not doing anything to help the arts.
- With some countable nouns, when we want to refer to a group, we use certain phrases ending in of. These include: a flock of birds/sheep, a herd of cows/elephants, a pack of cards/dogs, a bunch of flowers/grapes/keys, a set of encyclopaedias/keys

Singular uncountable nouns

- Singular uncountable nouns only have a singular form. They only take verbs in the singular. ✓ Is the information reliable?
- Singular uncountable nouns include: advice, blood, bread, furniture, hair, information, jewellery, knowledge, luggage, milk, money, news, permission, respect, water
- With singular uncountable nouns, if we want to describe one particular item, we have to use a phrase ending in of before the noun. Common phrases include: a bar of chocolate/soap, a bit of help/advice, a blade of grass, a block of concrete, a breath of fresh air, a drop of water, a grain of salt/sand, a gust of wind, a loaf of bread, a lump of sugar, a piece of bread/information, a scrap of paper, a sheet of paper, a slice of bread/cheese, a speck of dust/dirt, a spot of ink

Plural uncountable nouns

- Plural uncountable nouns only have a plural form. They only take verbs in the plural. ✓ The scissors aren't on the table.
- Plural uncountable nouns include: arms, binoculars, cattle, clothes, congratulations, earnings, glasses, goods, groceries, jeans, odds, pants, pliers, premises, pyjamas, regards, remains, savings, scales, scissors, shorts, surroundings, thanks, tights, trousers, valuables
- * With plural uncountable nouns, we can sometimes use a pair of, usually when we see something as having two parts/legs/etc, eg a pair of binoculars/trousers/scissors/etc.

atch out!

- Some uncountable nouns end in -s but are singular, eg diabetes, news, physics, politics.
- Many nouns are countable with one meaning and uncountable with another meaning. These include: cake, chicken, chocolate, damage, glass, hair, paper, time, wood, work
 - ✓ The table is made of **wood**. (uncountable, = the material)
 - ✓ It's a picture of a local wood. (countable, = a small forest)
- Some nouns which are usually uncountable are used as countable nouns in certain expressions, eg a knowledge of, a
 great help.

Divorce

Legal and social changes in Britain have led to many more people choosing getting divorced over the last three decades. The Divorce Reform Act (1969) let people to get divorced far more easily and, despite promising staying together for life, over 160,000 couples ended up to get divorced each year during the late 80s and early 90s, compared to just over 27,000 in 1961. Towards the end of the twentieth century, divorce rates tended falling, then started to rise again over the first years of the twenty-first century.

When asked what motivated them getting divorced, people usually mention things like not to feel that the relationship was developing, or their partner making them to feel inadequate. Whatever causes people separating, it is often the children who have to learn living in a different family setting. They often resent to have to change their lives because the adults involved can't manage resolving their difficulties. Divorce has got easier legally, but it hasn't got any easier emotionally.

Reporting

Reported speech: tense changes

- If the reporting verb is in the past (eg said), we usually have to change the tense of what the person actually said. The general rule is go back one tense but there are some exceptions.
- With past perfect simple and continuous, there is no tense change.

Direct speech	Reported speech
present simple: Sam doesn't play hockey very often.	past simple: Fiona said that Sam didn't play hockey very often.
present continuous: I'm winning!	past continuous: Carol shouted to us that she was winning.
present perfect simple: I've never been given a trophy before!	past perfect simple: Paul said that he'd never been given a trophy before.
present perfect continuous: They've been playing for four hours.	past perfect continuous: She told us that they'd been playing for four hours.
past simple: We lost the match.	past perfect simple: Finally he told us that they had lost the match.
past continuous: We were winning until half-time.	past perfect continuous: She said they had been winning until half-time.

Watch out!

- When something is still true, we can change tense but we don't have to.

 ✓ The article said that fishing is/was the most popular sport in Britain.
- When we are reporting a scientific or historical fact, we don't usually change tense.
 - ✓ Alan told me that Queen Victoria hated Gladstone, the Prime Minister.
- Although we can usually leave out that (Alan told me (that) Queen Victoria ...), we cannot leave out that after the verbs reply and shout.
 - ✓ I replied that going swimming in such cold water was a ridiculous idea.

Reported speech: modal and semi-modal changes

- * If the reporting verb is in the past (eg said), we sometimes have to change modals and semi-modals.
- Could, would, should, ought to, had better and need do not change.
 - ✓ 'I could swim when I was three,' said Lizzie. → Lizzie said that she could swim when she was three.

Direct speech	will/shall	can	must	have to	don't/doesn't have to	mustn't	may	am/is/are going to
Reported speech	would	could	must had to be to should	had to	didn't have to	mustn't be not to shouldn't	might	was/were going to

Vatch out!

- When we are expressing obligation, must in direct speech usually changes to had to, be to or should in reported speech.
 - ✓ 'You **must** do what the referee tells you,' said the coach. The coach said that we **had to / were to / should** do what the referee told us.
- When we are expressing obligation, mustn't can become mustn't, be not to or shouldn't.
 - ✓ 'You **mustn't** cheat under any circumstances!' We were told that we **mustn't** / **were not to** / **shouldn't** cheat under any circumstances.
- Must doesn't usually change to had to or should when we are expressing probability.
 - ✓ 'It **must** have felt wonderful when they won!' said Dave. Dave said that it **must** have felt wonderful when

Reported speech: pronoun and determiner changes

Direct speech	Reported speech
my: It's my turn.	his/her: Eddie pointed out that it was his turn.
this/that + noun: I bought this fishing rod yesterday.	the/that: Linda said she'd bought the fishing rod the day before.

verb + these/those (without an object): I've had these for years.	them: She said she'd had them for years.

Watch out

- We do not need to change time words/phrases when the information is still true at the moment of speaking/writing.
 ✓ 'I'll see you at the match next week,' said Dave. → Dave told us he'd see us at the match next week.
- In narratives, writers often use direct speech time words and phrases for dramatic effect.
 ✓ Carlo turned to Fraser and said that, here, now, they would decide who the champion was once and for all.

Reported speech: time and place changes

Direct speech	Reported speech	Direct speech	Reported speech

Reported questions

- With reported questions, we make the same changes regarding tense, pronoun and time and place word/phrases as we do with reported speech.
- In reported questions we don't use the question form or question marks.

Direct speech	Reported speech		
Questions beginning with the verbs have, do, be and modals ' Do you want to play Monopoly?' asked Cheryl.	Cheryl asked if/whether we wanted to play Monopoly.		
Questions with what, who, which, when, where, why and how 'What time did the match start?' asked Jimmy.	Jimmy asked Andrea what time the match had started.		

The structure question word + infinitive is very common with reported questions.

✓ She asked me how to tune a piano.

✓ He asked me what to do.

Reported commands and requests

Direct speech	Reported speech
Commands 'Put the cricket bats away!' said Alex.	tell / command / order / instruct + sb + full infinitive Alex told me to put the cricket bats away.
Requests 'Would you put the cricket bats away?' asked Alex.	ask + sb + full infinitive Alex asked me to put the cricket bats away.

Reporting verbs

Different reporting verbs take different grammatical patterns. Some verbs can take more than one pattern, eg deny doing, deny sth, deny (that)

Common reporting verbs include: accuse, agree, apologise, ask, beg, claim, command, cry, deny, explain, instruct, order, promise, refuse, reply, respond, say, shout, state, suggest, tell, whisper

Hobbies

The next time someone asks me (1) my hobbies are, or, indeed, (2) I have any hobbies, I'm tempted to refuse (3) answer. Better still, I'll turn the question round and ask them to (4) me what their hobbies are. Doubtless they'll claim to (5) an avid collector of rare postage stamps, or an expert builder-of-cathedrals-out-of-matchsticks, but I shan't believe it. I don't think we should deny (6) any longer: the hobby is dead. I would like to suggest (7), from now on, the word 'hobby' is erased from our vocabulary. You may accuse me (8) being naïve, but I strongly believe the facts support my case. Ask any teenager - or adult, for that matter - how they (9) their spare time. They'll respond (10) a list of activities – going to the gym, playing computer games, watching TV, downloading music, hanging out with friends, surfing the Internet, going to the pub, playing football – none of which can sensibly be called a hobby.

The beginnings of modern leisure

During the first half of the nineteenth century, more and more people were employed in factories, working
14- or 15-hour days that left them little time for hobbies, sport or any other form of (1)
and meant they weren't able to (2) with friends. A key breakthrough in Britain
came with the Ten Hour Act (1847), which limited the working day and ensured that workers got some
(3) from their jobs. People now had at least some time to (4) from
work at the end of the day and (5) themselves.
Not everyone approved. Many members of the middle class hated the idea of the workers being
(6) and believed that they would waste their time on (7)
matters instead of (8) productive activities, such as education or going to church.
The workers, however, found the new freedom (9) and threw themselves into new
(10) with enthusiasm.
